CUO to carry studies of HAL CSR projects

PNS ■ KORAPUT

As part of an industry-Academia interface, the Central University of Odisha (CUO), Koraput will carry out an impact assessment of the corporate social responsibility (CSR) projects undertaken by the local unit of Hindustan Aeronautics Limited (HAL) towards development of tribal dominated Koraput, which is an aspirational district.

A preliminary meeting was held recently under the chairmanship of CUO VC Prof I Ramabrahmam. The Vice Chancellor stressed upon greater cooperation between

HAL and CUO in various areas in the coming days that can help improve the socio-economic condition of the region.

Under the chairmanship of the VC, an Advisory Group has been formed to undertake the impact assessment studies of the CSR projects as per the request from the HAL.

The members of the Advisory Committee consists of the district Collector, Koraput, faculty members of CUO Dr Kapila Khemundu,

Head I/c Sociology, Dr Jayant Kumar Nayak, Head I/c Anthropology and Dr Minati Sahu, Head I/c Economics and Management,

with Prof Sharat Kumar Palita, Dean, SBCNR as Member Coordinator from CUO.

The impact assessment study will be made on the CSR projects of HAL, particularly educational projects, meant for imparting education to the poor children in and around Sunabeda, Koraput in HAL run educational institutions.

In the meeting it was agreed that the CUO will undertake the impact assessment studies of CSR projects as per the specific term and conditions and as per laid down procedures for CSR Projects by HAL.

and social scientists not only to create awareness but also to embark upon projects/ actions leading to large scale scientific plantation drives to bring greenery all around. He stressed upon creating a scientific temper and awareness among the University community that can help restore our Earth. Prof. Sharat Kumar Palita, Dean, School of Biodiversity and Conservation of Natural Resources delivered the welcome address.

Prof. Rao in his illuminating address shared his views how the ever expanding human population has reduced resources and brought all sorts of problems starting from shrinking forest cover, pollution, global warming and climate change and increase in expenditure on health care. He stressed upon eco-friendly/earth friendly life styles to be adopted by CUO family by reducing 'carbon foot prints' at all levels. He asserted that towards restoring Earth, CUO-SBCNR initiative will be to make CUO the first Carbon Neutral University in coming years. He was optimistic that as an educational institution we have not only great role in creating awareness but also achieving the objective for cleaner and greener environment.

Prof. Palita highlighted different awareness activities on environment undertaken by the department of Biodiversity and Conservation of Natural Resources of the CUO. He said that COVID pandemic has thrown challenges on humanity as well as provided opportunity to set the earth
