भुवनेश्वर। ओडिशा केंद्रीय विश्वविद्यालय शीक्षणिक वर्ष 2023-24 से तीन बार नए स्नातक कार्यक्रम और एक स्नातकोत्तर कार्यक्रम शुरू करने जा रहा है। ये कृषि विज्ञान, ड्रेसर विज्ञान और वन प्रबंधन में चार साल के बीएससी कार्यक्रम और रत्न और आमूली शृंखला प्रबंधन में दो साल के पीजी / एमबीए कार्यक्रम हैं।

हाल ही में विश्वविद्यालय के कूलपति प्रो चन्द्रकर त्रिपाठी ने न केवल ओडिशा; बल्कि भारत की युवा पीढ़ियों के लिए नये कार्यक्रमों को शुरु करने के लिए कहा। उन्होंने कहा कि कैंसर, वाणी, अटक, कैफीन, कार्बन मिर्च, सबजी और कटेल का एक प्रमुख उत्पादक है। कॉफीप्ट मिर्ची में सुगबिता, ड्रेसर प्रूट, सेब, लेटल और अन्य तुलनित फल भी उत्पादन होते हैं।

भारत में शैक्षिक प्रबंधन का ध्यान में रखना चाहिए, जिनके संस्थान सहित तथा आदर्शों के लिए राजस्थान के हिंद को पुरा करने के लिए उपयोग करने का कार्यक्रम नये कार्यक्रम शुरू करने का निर्णय लिया गया है।

विश्वविद्यालय के कूलपति प्रोफेसर त्रिपाठी ने कहा कि पूरी घाट में सिखते कॉफीप्ट क्षेत्र एक हाईटेक पृथ्वी है, क्योंकि कई पहाड़ियों और पहाड़ियों हैं। उत्तर-पूर्वी ओडिशा में चिकित्सा और विज्ञान-मध्य भाग को छोड़ कर, लगभग पूरी जिलों में घने जंगलों और आवाजिक उद्योग-खानड़ों का केंद्र है।

कृषि, पशुपालन और वन उद्योग जिला अर्थव्यवस्था का मुख्य आधार है और कॊफीप्ट जिले में 80% से अधिक सहायक सीधे कृषि पर निर्भर करती है।

अधिकांश किसान कॉफीप्ट में पारंपरिक कृषि प्रणालियों का उपयोग करते हैं, जबकि पूरे देश के किसान आधुनिक तकनीकों को अपनाने के लिए संघर्ष कर रहे हैं।

उन्होंने कहा कि गांधी जान पीहोडी-दर-पीहोडी एवं परिवारों के लिए प्रशासित किया जा चुका है।

उल्लेखनीय है कि 2012 में संयुक्त राष्ट्र के खाद्य एवं कृषि संगठन (एप्यो) ने खाद्य उत्पादक को बढ़ावा देने और जीवन विविधता के संरक्षण के लिए ओडिशा के कॉफीप्ट क्षेत्र में प्रभावित पारंपरिक कृषि प्रणाली को विशेष स्थान पर महत्वपूर्ण कृषि विस्तार प्रणाली (जीआईएसएस) का दायित्व दिया है। उपरोक्त का स्थान में रखा हुआ विश्वविद्यालय शीक्षणिक वर्ष 2023-24 से कृषि विज्ञान, ड्रेसर विज्ञान और वन प्रबंधन में चार वर्षीय बीएससी कार्यक्रम शुरू करने जा रहा है।

उन्होंने कहा कि कॉफीप्ट चाय, बाजरा, अटक, कैफीन, कार्बन मिर्च, सबजी और कटेल का एक प्रमुख उत्पादक है। कॉफीप्ट मिर्ची में सुगबिता, ड्रेसर प्रूट, सेब, लेटल और अन्य तुलनित फल भी उत्पादन होते हैं। इन्हें चाय उत्पादन के वावर, राजस्थान और अंतरराष्ट्रीय स्तर पर इन उत्पादों के विश्वविद्यालय के लिए पर्यावरण प्रबंधन और आयुर्वेद श्रृंखला प्रणाली नहीं है। नये प्रोग्राम वानी लाइब्रेटिंग एंड एडवर्ड चेन मैनेजमेंट में दो साल का पीजी/एमबीए प्रोग्राम इन जरूरत को पूरा करेगा।

विश्वविद्यालय उपरोक्त कार्यक्रमों के लिए जल्द ही प्रवेश अधिसूचना जारी करेगा और प्रवेश प्रक्रिया 31 जुलाई 2023 से शुरू हो जायेगी। प्रवेश विषय में प्रवेश शाखा 44 होगी।

उपरोक्त कार्यक्रमों के लिए नए संकाय की नियुक्ति शीघ्र ही की जाएगी।
ओडिशा केंद्रीय विश्वविद्यालय के अकादमिक कार्यक्रम में नई दिसाएं

कोरोनापुर्ट: ओडिशा केंद्रीय विश्वविद्यालय शैक्षणिक वर्ष 2023-24 से नये पत्र स्नातक कार्यक्रम और एक स्नातकोत्तर कार्यक्रम शुरू करने जा रहा है। ये कृषि विज्ञान, देयबाबा विज्ञान और वन प्रबंधन में बाहर साल के एक कार्यक्रम और रसायन और आयुर्विज्ञान स्नातक प्रबंधन में दो साल के पीई/ एचबीए कार्यक्रम हैं। हाल ही में विश्वविद्यालय के मान्यता गुणहत्या प्राप्त किए गए। ज्ञाती ने न केवल ओडिशा, बल्कि भारत की सुरा पीढ़ियों के लिए नये कार्यक्रमों की शुरुआत के बारे में नये करने के लिए नई विश्वविद्यालयों में आयोजित शिक्षा मंथल, भारत सरकार के लिए बैठक की। भारत में शैक्षिक परिदृश्य को ध्यान में रखते हुए, जनजातीय समूहों संबंधि सुधा आदाली के लिए की गई नये कार्य करने के लिए उपरेक्षा नए कार्यक्रम शुरू करने का निर्देश प्राप्त था।

विश्वविद्यालय के मान्यता गुणहत्या प्राप्त किए गए, जो किसी भी बात में शिक्षा कोरोनपुर क्षेत्र एक हासिल पदार्थ है जिसमें वे पदार्थों और पदार्थों हैं। उन्होंने प्रमुख और प्रमुख-प्रमुख भाग को कहा मलकन, मलकन पूर्व जिले में तथा मलकन और पालवित का कर्मभूमि है। कृषि, पशुपति और अन्य जीवन की जीवनशैली का अनुभव आदाली है और कोरोनापुर्ट में 45% से अधिक भारतीय विद्यार्थी श्रेणी पर निर्भर करती है। अधिकांश विद्यार्थी कोरोनपुर में पारंपरिक कृषि प्रशासन का उपयोग करते हैं, जबकि पूरे देश के विद्यार्थी कार्यक्रम शुरू करना जल्दी कर सकते हैं। यह पारंपरिक भाषा पीढ़ी-पीढ़ी पितामहों द्वारा प्राप्त मान्यता प्राप्त करता था। उल्लेखित है कि 2012 में संयुक्त राष्ट्र के स्वतंत्र एक कृषि समिति (एकसमिति) ने उस समस्या के जिले के के नेतृत्व करने और वैज्ञानिक प्रक्षेपण के उपरेक्षा के लिए ओडिशा के कोरोनपुर क्षेत्र में प्रस्तावित पारंपरिक कृषि प्रशासन की विशेष व्याप्ति पर महत्वपूर्ण विषयों के उपरेक्षा प्रशासन विधेयक (जीआईएचचर्चा) का ज्ञान दिया है।

उपरेक्षात्मक दृष्टि के लिए जल्दी ही प्रत्येक कार्यक्रम की जानकारी प्राप्त करने और प्रत्येक कार्यक्रम 31 जुलाई 2023 से पूरे पूरी हो जाएगी। प्रत्येक कार्यक्रम में प्रत्येक कार्यक्रम का ज्ञान होगा।
नवभारत निर्देश | कोरोना।

अंड्रायन केंद्रीय विश्वविद्यालय रूढ़िवादिक वर्ष 2023-24 से तीन नए स्नातक कार्यक्रम और एक स्नातकोत्तर कार्यक्रम शुरू करने जा रहा है। ये कृषि विज्ञान, डेंटली विज्ञान और वन प्रबंधन में चार साल के बीएससी कार्यक्रम ओडिशा केंद्रीय विश्वविद्यालय के अकादमिक कार्यक्रम में नई दिशाएं

उपरोक्त को ध्यान में रखते हुए, विश्वविद्यालय रूढ़िवादिक स्तर 2023-24 से कृषि विज्ञान, डेंटली विज्ञान और वन प्रबंधन में चार वर्षीय बीएससी कार्यक्रम शुरू करने जा रहा है।” इसके अलावा, उन्होंने कहा कि कोरोना चावल, बाजार, अंदर, कॉन्फी, बाली मिर्च, सब्जियों और करहट का एक प्रमुख उत्पादक है। कोरोना, स्ट्रीट, डेंटली ब्रेस, सेवन, लेट्स तुर्क में भी उत्पन्न होते हैं। इसके बाद उत्पादन के बाहर, रस्ते और अंतरराष्ट्रीय स्तर पर इन उत्पादों के विकास के लिए पर्याप्त प्रबंधन और आर्थिक आत्मा को मुख्य आहार है, और कोरोना मशीन 80% से अधिक आहारी सुखे कृषि पर निर्भर करते है। अधिकांश किसान कोरोना में पारंपरिक कृषि प्रणालियों का उपयोग करते हैं, जबकि पूरा देश के किसान आर्थिक स्तरों को अपनाने के लिए संयम कर रहे हैं। यह पारंपरिक जन पीठी-दर-पीठी परिवारों द्वारा प्रभावित किया जाता है। उल्लेखनीय है कि 2012 में संयुक्त राष्ट्र के खाद्य एवं कृषि सचिव (एपएआई) ने खाद्य सुरक्षा को बढ़ावा देने और जैव विश्वविद्यालय के संस्थानों के लिए ओडिशा के कोरोना शेत के प्रमुख पारंपरिक कृषी प्रणाली को विकसित स्तर पर महत्वपूर्ण कृषि विस्तार प्रणाली (जीआईएएचएस) का उद्घाटन किया है।

CUO to start 3 UG, one PG programme from 2023-24 academic session

EXpress News Service
@ Bhubaneswar

THE Central University of Odisha at Koraput will introduce three new UG and one PG programme for the ensuing 2023-24 academic session.

The university will introduce four-year BSc programmes in agriculture science, dairy science, and forest management and two-year PG/MBA programme in logistics and supply chain management. This was announced by the university on Friday after vice chancellor (VC) Prof Chakradhar Tripathi held discussions on starting the new courses with senior officials of the Ministry of Education.

Stating that agriculture, livestock, and forest products are the mainstay of the district's economy where more than 80 per cent of the population depends on agriculture, Prof Tripathy said the selection of courses has been done keeping in mind the local geographic condition.

“The majority of farmers use traditional farming systems in Koraput whereas farmers across the country are struggling to adopt modern technologies. It is worth mentioning that in 2012 the Food and Agriculture Organisation of the United Nations had accorded the status of Globally Important Agricultural Heritage System to the traditional agricultural system of Koraput for promoting food security and conserving biodiversity. Keeping this in view, the university is going to start the BSc programmes from 2023-24”, he said.

The district also produces fruits, coffee, millets and spices in large quantities but there is no adequate management and supply chain system for marketing the produce. “The new PG/MBA programme will focus on training local youths in logistics and supply chain,” the vice chancellor added.
New Feathers in the Academic Programme of CUO

CUO to start four new programmes from 2023-24

Koraput: The Central University of Odisha is going to start three new undergraduate programmes and one postgraduate programme from the academic year 2023-24. These are four-year B.Sc. programmes in Agriculture Science, Dairy Science, and Forest Management and two-year PG/MBA Programme in Logistics and Supply Chain Management. Hon'ble Vice Chancellor of the University Prof. Chakradhar Tripathi had a meeting in the Ministry of Education, Govt. of India, at New Delhi to discuss about the starting of new programmes for the young generations of not only Odisha but also India. Considering the academic scenario in India, it has been decided to launch the above new programmes to cater the interest of the young population including the tribal community.

"The Koraput region situated in the Eastern Ghats is a highland plateau with a number of hills and hillocks. Except for the North-Western and Western Central part, almost the entire district is occupied by dense forests and highly rugged mountains. Agriculture, livestock, and forest products are the mainstay of the district economy, and more than 80% of the population in Koraput district directly depends on agriculture. The majority of farmers use traditional farming systems in Koraput whereas farmers all over the country are struggling to adopt modern technologies. This traditional knowledge is transmitted from generation to generation by families. It is worth mentioned that in 2012 the Food and Agriculture Organisation (FAO) of the United Nations has accorded the status of Globally Important Agricultural Heritage System (GIAHS) to the traditional agricultural system being practiced in Koraput region of Odisha for promoting food security and conserving biodiversity. Keeping in view of the above, the University is going to start four-year B.Sc. programme in Agriculture Science, Dairy Science and Forest Management from the academic session 2023-24", said Prof. Chakradhar Tripathi, Hon'ble Vice-Chancellor of the CUO.

Further, he said that Koraput is a prominent producer of rice, millet, ginger, coffee, black pepper, vegetable, and jackfruit. Strawberry, dragon fruit, apple, banana, and other rare fruit are also produced in the Koraput soil. Inspite of such huge production, there is no adequate management and supply chain system for marketing these products at the national and international level. The new programme i.e. two-year PG/MBA programme in Logistics and Supply Chain Management will fulfill these demands. The University will issue admission notification shortly for the above programmes and the admission process will be completed by 31st July 2023. The intake capacity in each discipline will be 44. The new faculty for the above programmes will be recruited in near future.
CUO Koraput To Start 3 New UG & 1 PG Programmes From 2023-24

Koraput, (7NB): The Central University of Odisha (CUO) in Koraput is going to start three new undergraduate programmes and one postgraduate programme from the academic year 2023-24. These are four-year B.Sc. programmes in Agriculture Science, Dairy Science, and Forest Management and two-year PG/MBA Programme in Logistics and Supply Chain Management. CUO Vice-Chancellor Prof. Chakradhar Tripathi had a meeting in the Ministry of Education, Govt. of India, at New Delhi to discuss starting new programmes for the young generations of Odisha and India. Further, he said that Koraput is a prominent producer of rice, millet, ginger, coffee, black pepper, vegetable, and jackfruit. Strawberry, dragon fruit, apple, banana, and other rare fruits are also produced in the Koraput soil. In spite of such huge production, there is no adequate management and supply chain system for marketing these products at the national and international level. The new programme i.e. two-year PG/MBA programme in Logistics and Supply Chain Management will fulfil these demands.

The university will issue admission notification shortly for the programmes and the admission process will be completed by July 31. The intake capacity in each discipline will be 44. The new faculty for the above programmes will be recruited in near future.
CUO to start one new PG, 3 UG programmes

The varsity will start 4-year BSc programmes in Agriculture Science, Dairy Science, and Forest Management and a 2-year PG/MBA programme in Logistics and Supply Chain Management.

PNN & AGENCIES

Bhubaneswar, May 19: The Central University of Odisha (CUO) is going to start three new undergraduate (UG) programmes and one postgraduate (PG) programme from the academic year 2023-24.

The University will start four-year BSc programmes in Agriculture Science, Dairy Science, and Forest Management and a two-year PG/MBA programme in Logistics and Supply Chain Management. The decision to launch the new programmes was taken after CUO Vice Chancellor Prof. Chakradhar Tripathi had a meeting with the Union Ministry of Education, at New Delhi.

Agriculture, livestock, and forest products are the mainstay of the Koraput district economy, and more than 80 per cent of the population in the district directly depends on agriculture. The majority of farmers use traditional farming systems in Koraput.

In 2012, the Food and Agriculture Organisation (FAO) of the United Nations had accorded the status of Globally Important Agricultural Heritage System (GIAHS) to the traditional agricultural system being practiced in Koraput region for promoting food security and conserving biodiversity.

“Keeping this in view, the University is going to start four-year BSc programmes in Agriculture Science, Dairy Science and Forest Management from the academic session 2023-24,” said Vice Chancellor Prof. Chakradhar Tripathi. He said that Koraput is a prominent producer of rice, millet, ginger, coffee, black pepper, vegetable, jackfruit, strawberry, dragon fruit, apple and banana. But there is no adequate management and supply chain system for marketing these products at the national and international level. The new two-year PG/MBA programme in Logistics and Supply Chain Management will fulfil these demands.

CUO Koraput To Start 3 New UG & 1 PG Programmes From 2023-24

**Koraput:** The Central University of Odisha (CUO) in Koraput is going to start three new undergraduate programmes and one postgraduate programme from the academic year 2023-24.

These are four-year B.Sc. programmes in Agriculture Science, Dairy Science, and Forest Management and two-year PG/MBA Programme in Logistics and Supply Chain Management.

CUO Vice Chancellor Prof. Chakradhar Tripathi had a meeting in the Ministry of Education, Govt. of India, at New Delhi to discuss starting new programmes for the young generations of Odisha and India. Considering the academic scenario in India, it has been decided to launch the above new programmes to cater the interest of the young population including the tribal community.

"The Koraput region situated in the Eastern Ghats is a highland plateau with a number of hills and hillocks. Except for the North-Western and West-Central parts, the entire district is occupied by dense forests and highly rugged mountains. Agriculture, livestock, and forest products are the mainstay of the district economy, and more than 80% of the population in Koraput district directly depends on agriculture. Most farmers use traditional farming systems in Koraput whereas farmers all over the country struggle to adopt modern technologies. This traditional knowledge is transmitted from generation to generation by families. It is worth mentioned that in 2012 the Food and Agriculture Organisation (FAO) of the United Nations has accorded the status of Globally Important Agricultural Heritage System (GIAHS) to the traditional agricultural system being practiced in Koraput region of Odisha for promoting food security and conserving biodiversity. Keeping in view of the above, the University is going to start four-year B.Sc. programme in Agriculture Science, Dairy Science and Forest Management from the academic session 2023-24”, said Prof. Chakradhar Tripathi, Hon'ble Vice-Chancellor of the CUO.

Further, He said that Koraput is a prominent producer of rice, millet, ginger, coffee, black pepper, vegetable, and jackfruit. Strawberry, dragon fruit, apple, banana, and other rare fruit are also produced in the Koraput soil. Inspite of such huge production, there is no adequate management and supply chain system for marketing these products at the national and international level. The new programme i.e. two year PG/MBA programme in Logistics and Supply Chain Management will fulfill these demands.

The University will issue admission notification shortly for the above programmes and the admission process will be completed by 31st July 2023. The intake capacity in each discipline will be 44. The new faculty for the above programmes will be recruited in near future.
CUO At Odisha’s Koraput To Start 4 New Courses Focusing On Farming From This Academic Year

The Central University of Odisha (CUO) will start three new under-graduate (UG) courses and one post-graduate (PG) programme from 2023-24 academic year.

The new courses include 4-year BSc in Agriculture Science, Dairy Science and Forest Management and two-year PG/MBA programme in Logistics and Supply Chain Management.

Vice-Chancellor of the university Prof Chakradhar Tripathi had a meeting with the Ministry of Education at New Delhi on new programmes for the young generations of not only Odisha but also India. Considering the academic scenario in the country, it has been decided to launch the new courses to cater to the interest of the young population including the tribal community.

Speaking on the new courses, the vice-chancellor said, “Agriculture, livestock, and forest products are the mainstay of the economy of Koraput district and more than 80% of its population directly depends on agriculture. Majority of farmers use traditional farming systems. This traditional knowledge is transmitted from generation to generation by families.”

In 2012, the Food and Agriculture Organisation (FAO) of the United Nations accorded the status of Globally Important Agricultural Heritage System (GIAHS) to the traditional agricultural system being practiced in Koraput for promoting food security and conserving biodiversity.

“Keeping this in view, the CUO will start the BSc programme in Agriculture Science, Dairy Science and Forest Management from 2023-24 academic session”, said Prof Tripathi.

He further said Koraput is a prominent producer of rice, millet, ginger, coffee, black pepper, vegetable, and jackfruit. Besides, strawberry, dragon fruit, apple, banana, and other rare fruit are also produced in the district.

“In spite of such huge production, there is no adequate management and supply chain system for marketing these products at the national and international level. The new programme of two-year PG/MBA in Logistics and Supply Chain Management will fulfill these demands,” he added.

The university will issue admission notice for the new programmes shortly and the admission process will be completed by July 31. While the intake capacity in each discipline will be 44, the new faculty for the programmes will be recruited soon, he said.

New Feathers in the Academic Programme of CUO

Posted On: 19 MAY 2023 7:03PM by PIB Bhubaneswar

The Central University of Odisha is going to start three new undergraduate programmes and one postgraduate programme from the academic year 2023-24. These are four-year B.Sc. programmes in Agriculture Science, Dairy Science, and Forest Management and two-year PG/MBA Programme in Logistics and Supply Chain Management. Hon’ble Vice Chancellor of the University Prof. Chakradhar Tripathi had a meeting in the Ministry of Education, Govt. of India, at New Delhi to discuss about the starting of new programmes for the young generations of not only Odisha but also India. Considering the academic scenario in India, it has been decided to launch the above new programmes to cater the interest of the young population including the tribal community.

“The Koraput region situated in the Eastern Ghats is a highland plateau with a number of hills and hillocks. Except for the North-Western and West-Central part, almost the entire district is occupied by dense forests and highly rugged mountains. Agriculture, livestock, and forest products are the mainstay of the district economy, and more than 80% of the population in Koraput district directly depends on agriculture. The majority of farmers use traditional farming systems in Koraput whereas farmers all over the country are struggling to adopt modern technologies. This traditional knowledge is transmitted from generation to generation by families. It is worth mentioned that in 2012 the Food and Agriculture Organisation (FAO) of the United Nations has accorded the status of Globally Important Agricultural Heritage System (GIAHS) to the traditional agricultural system being practiced in Koraput region of Odisha for promoting food security and conserving biodiversity. Keeping in view of the above, the University is going to start four-year B.Sc. programme in Agriculture Science, Dairy Science and Forest Management from the academic session 2023-24”, said Prof. Chakradhar Tripathi, Hon’ble Vice-Chancellor of the CUO.

Further, he said that Koraput is a prominent producer of rice, millet, ginger, coffee, black pepper, vegetable, and jackfruit. Strawberry, dragon fruit, apple, banana, and other rare fruit are also produced in the Koraput soil. Despite of such huge production, there is no adequate management and supply chain system for marketing these products at the national and international level. The new programme i.e. two year PG/MBA programme in Logistics and Supply Chain Management will fulfill these demands.

The University will issue admission notification shortly for the above programmes and the admission process will be completed by 31st July 2023. The intake capacity in each discipline will be 44. The new faculty for the above programmes will be recruited in near future.
