ओडिशा केंद्रीय विश्वविद्यालय ने पारंपरिक कक्षाओं को अत्याधुनिक स्मार्ट कक्षाओं में बदल दिया

desk 2 days ago Odisha

भुवनेश्वर. ओडिशा केंद्रीय विश्वविद्यालय ने प्रत्येक 14 विभागों की कक्षा में डिजिटल इंटरएक्टिव डिस्प्ले, विजुअल प्रेजेंटर्स, इलेक्ट्रॉनिक लेक्चर आदि स्थापित करके पारंपरिक और पारंपरिक कक्षाओं को अत्याधुनिक स्मार्ट कक्षाओं में बदल दिया. कुलपति प्रो. आई. रामब्रह्मम ने कहा कि विश्वविद्यालय द्वारा की गई इस पहल से विश्वविद्यालय में शिक्षण और सीखने की गुणवत्ता में बहुत सुधार होगा और समग्र शैक्षिक अनुभव के लिए आधुनिक शिक्षाशास्त्र को सामने रखा जाएगा. शिक्षक और छात्र अपने सीमित समय का उपयोग छात्रों को हर एक अवधारणा को समझने और सीखने के लिए कर सकते हैं.

उन्होंने कहा कि इस टर्न-की और उपयोगकर्ता के अनुकूल समाधान का मुख्य फोकस शिक्षकों को उन्नत तकनीकी संसाधनों से लैस करना है, ताकि आवश्यक कौशल सेटों को बढ़ाया जा सके, जो 21वीं सदी में आवश्यक अनिवार्य आवश्यकताएं थीं- संचार, सहयोग, रचनात्मकता, आलोचनात्मक सोच और समस्या का समाधान. हम वास्तव में मानते हैं कि इस वैश्विक प्रतिस्पर्धी प्लेटफॉर्म में छात्रों को विकसित करने के लिए 360 डिग्री के विकास के लिए इन कौशल सेटों को बढ़ाना और महारत हासिल करना बहुत आवश्यक है.

शिक्षकों को स्मार्ट क्लासरूम चलाने के लिए परिचित और अच्छी तरह से परिचित कराने के लिए, 16-17 दिसंबर 2020 को तकनीकी लोगों के साथ दो दिवसीय विशेष प्रशिक्षण सत्र आयोजित किया गया. छात्रों को गुणवत्तापूर्ण शिक्षा प्रदान करने के लिए अब ऑनलाइन और आमने-सामने की कक्षाएं दोनों कैंपस में संभव हैं. यह जानकारी डॉ. फगुनाथ भोई, जनसंपर्क अधिकारी ने दी.

स्मार्ट क्लासरूम समाधान की मुख्य विशेषताएं:

• चिकना और स्मार्ट परिव्यय के साथ एक समाधान, आसपास की अपनी प्रस्तुति में अतिरिक्त अपील जोड़ता है.

• यह एक समकालीन और आरामदायक शिक्षण वातावरण बनाने के लिए पारंपरिक और आधुनिक शैक्षणिक अनुप्रयोगों के मिश्रण के साथ एक समकालीन और व्यापक समाधान है.

• इंटरएक्टिव डिस्प्ले सामान्य बातचीत के माहौल को सहयोग और उत्पादकता के मामले में उच्च पायदान पर बदल देता है.

• इंटरएक्टिव डिस्प्ले में इंटरएक्टिव सॉफ्टवेयर इनबिल्ट होता है, जो कक्षाओं को और अधिक प्रभावी और सहयोगी बनाने के लिए लाइव एनोटेट, लिखने, संपादित करने, सहेजने, मिटाने, हाइलाइट करने, रंग, आकृति, प्रिंट, ईमेल, रिकॉर्ड, चुनने के लिए कई विशेषताओं की पेशकश करता है.

• शिक्षक कक्षाओं का संचालन करते समय सूचनाओं और मल्टीमीडिया सामग्री जैसे प्रस्तुतियों, पीडीएफ, दस्तावेजों, वीडियो और छवियों को व्यक्त कर सकता है.

• इलेक्ट्रॉनिक व्याख्यान सहज व्याख्यान वितरण के लिए एक एकल प्रस्तुति डिवाइस के रूप में काम करते हैं जो प्रस्तुतकर्ता दर्शकों के बीच दो-तरफ़ा बातचीत को और अधिक उत्सुक बनाता है.

• इलेक्ट्रॉनिक व्याख्यान एकल प्रस्तुति मंच में रचनात्मक उपकरणों को एकीकृत करके संचार, सहयोग और उत्पादकता को सुव्यवस्थित करता है.

• दृश्य प्रस्तुतकर्ता बड़े दर्शकों के लिए स्क्रीन पर एक दस्तावेज़ या ऑब्जेक्ट प्रदर्शित करने में बहुत मदद करता है.

CUO gives tech edge to its classrooms

Satyanarayan Pattnaik | TNN

Koraput: To create an immersive and comfortable learning environment, the Central University of Odisha (CUO) at Sunabeda has replaced its traditional and conventional classrooms with state-of-the-art smart classrooms.

Official sources said digital interactive displays, visual presenters, and electronic lectern, among others, have been installed in the classrooms of all the 14 departments to equip the teachers with advanced technological resources to enhance their communication, collaboration, creativity, critical thinking and problem solving skills.

Updating of the classrooms to smart classrooms will greatly improve the quality of teaching and learning in the varsity and put forth a modern pedagogy for the holistic educational experience, said I Ramabrahmam, vice-chancellor of the varsity.

The smart classes will help students to learn every single concept in immersive and engaging ways.

ओडिशा केंद्रीय विवि ने पारंपरिक कक्षाओं को अत्याधुनिक स्मार्ट कक्षाओं में बदल दिया

• नवभारत ब्यूरो, भुवनेश्वर

ओडिशा केंद्रीय विश्वविद्यालय ने प्रत्येक 14 विभागों की कक्षा में डिजिटल इंटरएक्टिव डिस्प्ले, विजुअल प्रेजेंटर्स, इलेक्ट्रॉनिक लेक्चर आदि स्थापित करके पारंपरिक और पारंपरिक कक्षाओं को अत्याधुनिक स्मार्ट कक्षाओं में बदल दिया. कुलपति प्रो. आई. रामब्रह्मम ने कहा कि विश्वविद्यालय द्वारा की गई इस पहल से विश्वविद्यालय में शिक्षण और सीखने की गुणवत्ता में बहुत सुधार होगा और समग्र शैक्षिक अनुभव के लिए आधुनिक शिक्षाशास्त्र को सामने रखा जाएगा. शिक्षक और छात्र अपने सीमित समय का उपयोग छात्रों को हर एक अवधारणा को समझने और सीखने के लिए कर सकते हैं.उन्होंने कहा कि इस टर्न-की और उपयोगकर्ता के अनुकूल समाधान का मुख्य फोकस शिक्षकों को उन्नत तकनीकी संसाधनों से लैस करना है, ताकि आवश्यक कौशल सेटों को बढ़ाया जा सके, जो 21वीं सदी में आवश्यक अनिवार्य आवश्यकताएं थीं- संचार, सहयोग, रचनात्मकता, आलोचनात्मक सोच और समस्या का समाधान. हम वास्तव में मानते हैं कि इस वैश्विक प्रतिस्पर्धी प्लेटफॉर्म में छात्रों को विकसित करने के लिए 360 डिग्री के विकास के लिए इन कौशल सेटों को बढ़ाना और महारत हासिल करना बहुत आवश्यक है.शिक्षकों को स्मार्ट क्लासरूम चलाने के लिए परिचित और अच्छी तरह से परिचित कराने के लिए, 16-17 दिसंबर 2020 को तकनीकी लोगों के साथ दो दिवसीय विशेष प्रशिक्षण सत्र आयोजित किया गया. छात्रों को गुणवत्तापूर्ण शिक्षा प्रदान करने के लिए अब ऑनलाइन और आमने-सामने की कक्षाएं दोनों कैंपस में संभव हैं. यह जानकारी डॉ. फगुनाथ भोई, जनसंपर्क अधिकारी ने दी.

AT CUO

Conventional classrooms turn State-of-the-art

PNS ■ KORAPUT

The Central University of Odisha, Koraput has transformed the conventional classrooms into state-of-the-art smart classrooms by installing digital interactive displays, visual presenters, electronic lectern, etc., in a classroom of each 14 departments.

"This initiative will greatly improve the quality of teaching and learning and put forth a modern pedagogy for the holistic educational experience. Teachers and students can utilise their limited span of time to make the students understand and learn every single concept in immersive and engaging ways" said CUO Vice-Chancellor Prof I Ramabrahmam.

He said the key focus of this turn-key and user-friendly solution is to equip the teachers with advanced technological resources to enhance the essential skill sets which were the mandatory requirements demanded in the 21st century -- communication, collaboration, creativity, critical thinking and problem solving.

"We truly believe that growing and mastering these skill sets are much needed for a 360-degree development of students to grow in this global competitive platform, he said.

To make the teachers acquainted and well-versed to run the smart classrooms, two days' special training sessions were conducted with the technical people. Both online and face-to-face classes are now possible in the campus to provide quality education.

CUO converts conventional classrooms to State-of -the-Art smart classrooms

Key Features of Smart Classroom Solution

- A solution with sleek & smart outlay, adds extra appeal in your presentation surrounding
- It is a contemporary and comprehensive solution with a blend of traditional & modern pedagogical applications to create an immersive & comfortable learning environment
- Interactive Displays transforms the normal interaction environment to a notch higher in terms of collaboration & productivity.
- The Interactive Display has inbuilt interactive software offering multiple features to live annotate, write, edit, save, erase, highlight, colour, shape, print, email, record, choose brushesetc.to make classes more effective & collaborative?
- The teacher can convey information and multimedia content like presentations, PDF, documents, videos, and images while conducting classes.
- Electronic Lecterns work as a single presentation device for seamless lecture delivery that makes two-way interaction between the presenterand audience even more efficacious.
- Electronic Lecterns streamlines communication, collaboration & productivity by integrating constructive tools into single presentation platform .
- The Visual Presenter helps a great deal in displaying a document or object on the screen to a large audience.
